

SOLAR ASSET TRACKER

Want to locate all your assets at the click of a button?

Your trailers are always on the move so it's important you have visibility national-wide. The solar tracking unit is designed to be mounted to the front of the trailer and is easy to install yourself. The ruggedized design is perfect for the tough conditions that trailers and other movable asset endure.

Maintenance

Live GPS odometer to allow for maintenance scheduling.

Know the facts

Reduce time required to locate assets and eliminate concerns around loss or theft.

Self-install

Install when and where you want.

Improved customer experience

Track freight with timely and accurate information.

Efficient utilisation

Identify under-utilised trailers within your fleet.

Specifications
