

DRIVER APP

Stay connected with your workers on the road through a mobile app that communicates directly to Hawk-Eye. Swift is designed in conjunction with drivers, for drivers.

The app delivers cost-effective management of sub-contractors and field workers through their mobile device. Swift allows you to communicate with and coordinate drivers when full tracking capabilities aren't required. You can manage the whole process from job dispatch through to electronic proof-of-delivery, in real-time.

Stay connected with all workers on the road

Easily manage all drivers including travelling field workers and sub-contractors.

Easy to install and get started

The Swift app is designed to be compatible for both Apple iOS and Android devices. Just another useful app on your driver's phone.

Navigation & Mapping
